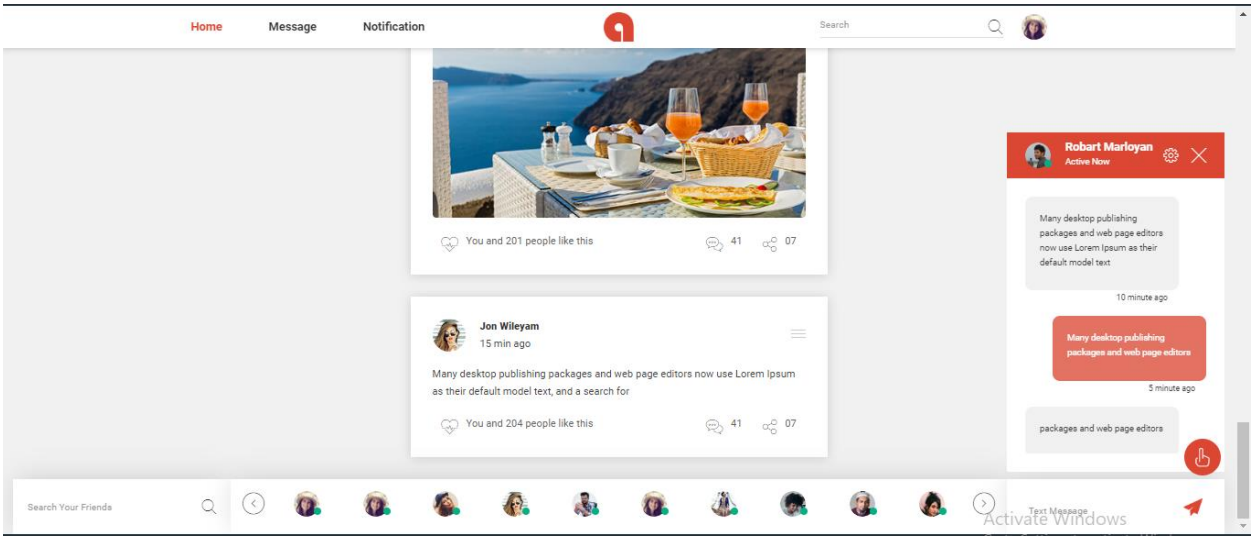
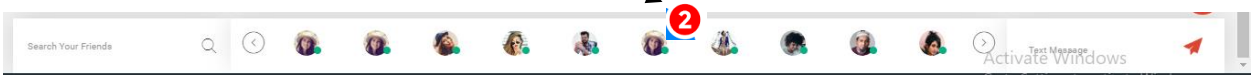
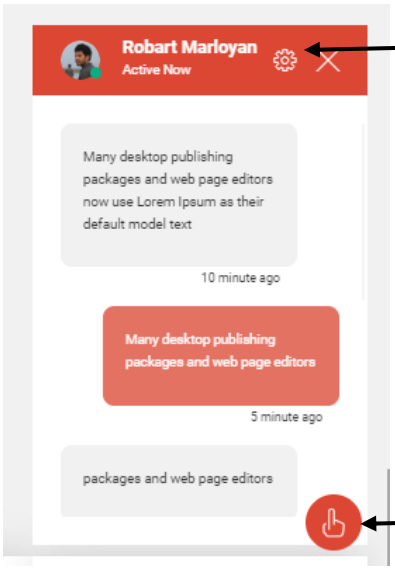
Chat box



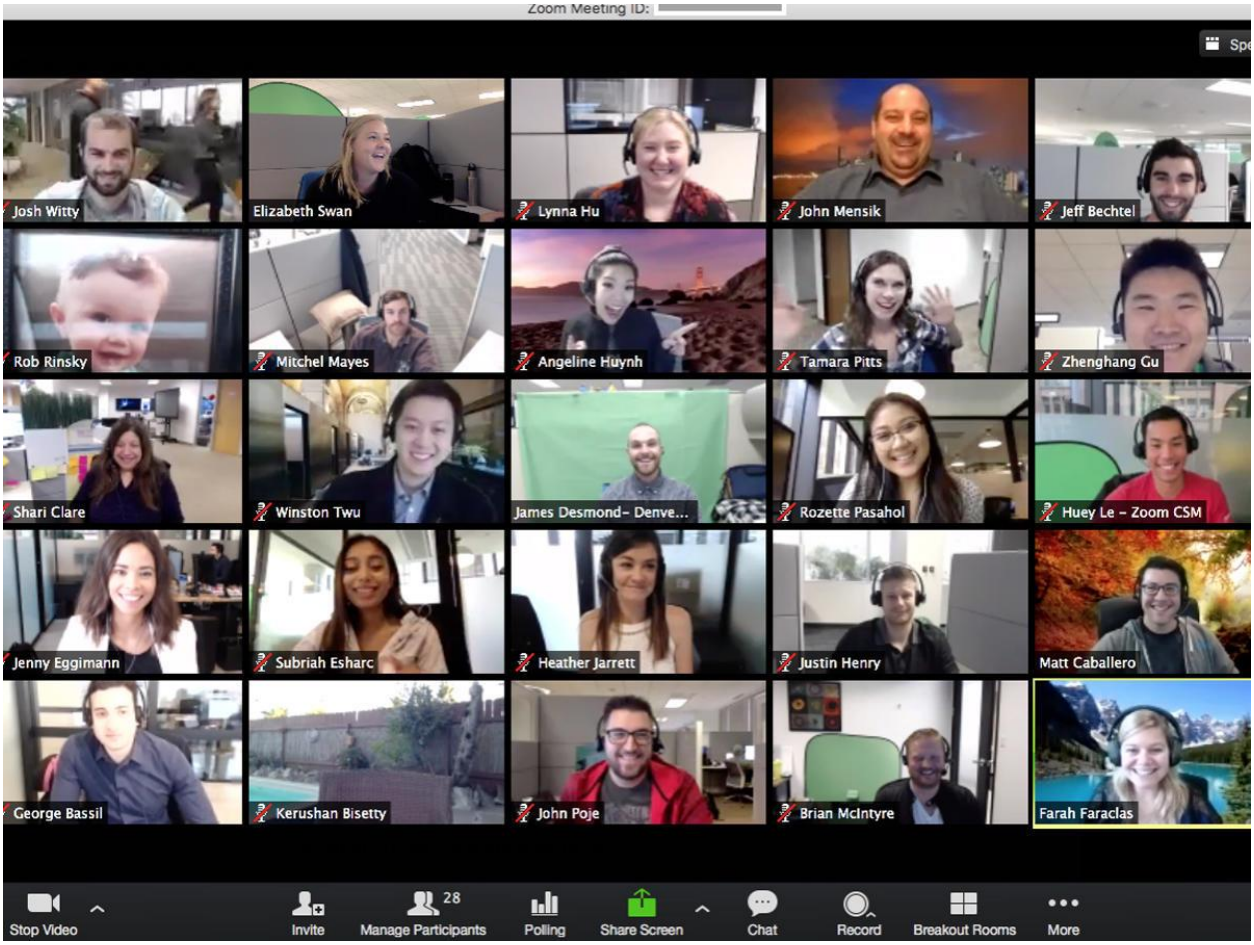
- No need to reserve column in UI or no need to install separate app to chat
- Chat bar is attached to footer
- Online people are showing as a green circle
- And you can find your friends easily
- If anyone put a msg only showing like below :



- No more bothering if you don't want to chat with them, no problem
- Only you want to chat, can select the relevant person and click then chat box will open like this.



And I nominated you to add call , video call icons mute with settings

It shows you can visit top of the page


Unlimited number of video call opportunity UI only with/without animations(Like snapchat)
